

NICOLET COLLEGE MISSION

In service to the people of Northern Wisconsin,
we deliver superior community college education
that transforms lives, enriches communities,
fosters economic development,
and expands employment opportunities.

NICOLET COLLEGE

Nicolet is a learning-centered community college serving Northern Wisconsin for over forty years. The campus is located on 280 beautifully wooded acres on the shores of Lake Julia in Rhinelander. The college also operates outreach centers throughout the district and continuing education courses are offered in many communities. The district covers all or parts of six counties with a combined population of about 84,000 residents. Approximately one out of every 12 district residents attends a Nicolet College course annually.

A wide variety of educational opportunities are offered at Nicolet including career diplomas, certificates, one and two-year degrees, university transfer-liberal arts studies, academic success programs, and continuing education courses. Nicolet is one of 16 colleges in the Wisconsin Technical College System. Articulation agreements with the University of Wisconsin system and private colleges and universities allow students to transition into baccalaureate degree study.

Nicolet offers a broad range of services for current students and members of the community. Services offered for students enhance college life, and provide resources to help students achieve academic success. Community members benefit from many college services such as the Creative Arts Series, the Richard J. Brown Library, and career exploration resources.
